INSTRUCTION MANUAL

Voltage: AC220-240V

Power: Heater: 830-1086W, Motor: 200W

Frequency: 50/60Hz

Rated capacity: 1800ml

READ THIS MANUAL PRIOR TO FIRST USE AND SAVE FOR FUTURE REFERENCE.

IMPORTANT SAFEGUARDS:

When using electrical appliances, basic safety precautions should always be followed including the following:

1. Read all instructions.
2. Do not touch hot surfaces.
3. To protect against fire, electric shock and injury to persons, do not immerse cord, plugs or coffee brewer in water or other liquid.
4. Never leave the appliance unattended when in use. Close supervision is necessary when any appliance is used by or near children.
5. Unplug from outlet when not in use, allow to cool before putting on or taking off parts, and before cleaning the appliance.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Call our toll-free Customer Assistance Number for examination, repair or adjustment.
7. The use of accessory attachments is not recommended by the appliance manufacturer and may result in fire, electrical shock or personal injury.
8. Do not use outdoors. (This product is designed for a specific purpose. Please do not use it outdoors)
9. Do not let cord hang over edge of table or counter, or touch hot surfaces.
10. Do not place cord on or near a hot electric or gas burner, or in a heated oven.
11. Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn control to off, then remove plug from wall outlet. (Only used for detachable equipment supply line), Do not pull the power cord directly.
12. Do not use this appliance for anything other than its intended use.
13. Coffee brewer use location:

A. To reduce the risk of fire or electric shock, do not place the coffee brewer above any electric heat source or gas.

B. To reduce the risk of fire, do not place the machine anywhere in the heating unit or cook near the machine.

14. Scalding may occur if the lid is removed during the brewing cycles.

15. Do not attempt to operate the appliance without putting water in the coffee brewer.

16.FOR HOUSEHOLD USE ONLY.

CORD SAFETY

- A short power-supply cord is provided to reduce risk of becoming entangled in or tripping over a longer cord.
 - Extension cords may be used if care is exercised in their use.
 - If an extension cord is used:
 - a.The marked electrical rating of the extension cord should be at least equal to the electrical rating of the appliance
 - B.The longer cord should be arranged so that it will not drape over the countertop or tabletop where it can be pulled on by children or tripped over.
- If the plug does not fit securely into the outlet, reverse the plug and re-insert. If it still does not fit, contact a qualified electrician for assistance. Do not modify the plug in any way.

Attention: This device is strictly prohibited for use by children or persons who are unwell, mentally ill or inexperienced, and who have not read the instructions carefully, unless they are supervised or directed to use the device by a detailed reader and someone have their safety.

Children should be supervised to ensure they do not play with equipment.

Once brewing has completed, the default keep warm settings will keep coffee hot for 2 hours and then automatically turn off.

1. Press the KEEP WARM button to adjust the keep warm settings. KEEP WARM will blink on the display.
2. Press the KEEP WARM button to select from: turning the keep warm function off, or keeping warm for 5 minutes to 40 minutes. You can adjust keep warm settings at any time.

FRESHNESS INDICATOR

When in keep warm mode, the display will count up, letting you know how much time passed since the coffee was brewed.

CLEANING & MAINTENANCE

DESCALING THE COFFEE MAKER

WARNING: Please be sure to remove the plug from the wall socket during storage, and wipe the machine filter and water tank with soft and moist cloth. To prevent electric shock, do not immerse wires, plugs or devices in water or any liquid.

Clean all removable parts after each use.

The funnel, filter; carafe, and scoop are dishwasher safe.

FUNNEL AND CARAFE

Clean with warm soapy water and a non-abrasive sponge.

FILTER

Clean with warm soapy water and use a soft cloth to dry.

INTERIOR

Use a sponge or non-metal brush to clean the inside of the coffee maker. Then wipe it dry with a soft cloth.

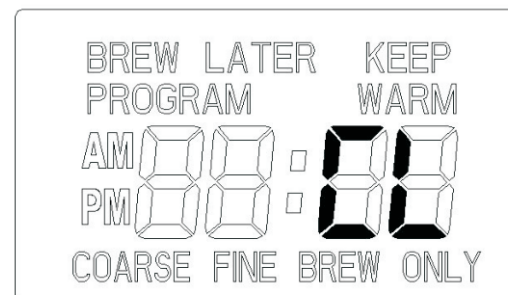

WARMING PLATE AND EXTERIOR

Use a damp cloth to clean the warming plate and exterior of the coffee maker. Then wipe it dry with a soft cloth.

Do not use harsh cleaning agents or metal brushes, in order to avoid scratching the stainless steel surface

NOTE: Ensure the funnel and filter are completely dry before use
After using your coffee maker for a while, limescale will begin to build up inside the machine. It is important to descale your appliance every 2-3 months. If the machine is used daily, the descaling process should be done monthly.

- Plug the coffee maker into an outlet.
- Mix equal parts vinegar and water and pour it into the water reservoir. Close the lid. Place the carafe on the warming plate.
- Press the CLEAN Button, You will see the LCD display show CL, then press the ON/OFF button to brewing process.

- When the brewing process is complete, fill up the coffee maker with water and begin brewing again. This washes out any remaining vinegar.
- If an odor of vinegar persists, run another cycle with water.
- Use a soft sponge and baking soda to remove stains from the carafe. If the stains remain, mix 1 cup water, 1 cup vinegar and 1/2 cup of baking soda and allow it to sit in the carafe overnight.

STORAGE

- Unplug the appliance and let it cool down.
- Make sure all parts are clean and dry.
- Store the appliance in a clean and dry place.

ENVIRONMENT

Do not throw away the appliance with the normal household waste at the end of its life, but hand it in at an official collection point for recycling. By doing this, you help to preserve the environment.

Tips on delicious coffee:

1. A clean coffee machine is the key to making delicious coffee. Use clean water and clean and maintain coffee brewer regularly.
2. Store unused coffee grounds or beans in a cool, dry place. After opening, it should be sealed to keep fresh.
Tip: To get the best coffee, choose the right coffee ground or beans according to your preference. Medium Roast is recommended.
3. Do not reuse the brewed coffee powder, as reheating can greatly reduce the taste of the coffee.
4. When a small amount of oil appears on the surface of the coffee when brewing, because the coffee contains its own oil.
5. If you use heavily roasted coffee, it will give off more oil
